DESCRIBE THE PRESENT AND ORIGINAL (II known) PHYSICAL APPEARANCE

Prior to the 1930's most of the area in Section 25 (See Property Plat Map attached) was practically a wilderness. Within this area to the south lies the Old David Archer cemetery consisting of 2 acres of land, and containing the grave of John Chapman, known as Johnny Appleseed.

During the 1930's some of the wilderness was cleared from a portion of the cemetery and a narrow gravel road was installed from there to Parnell Avenue. During this period, a granite memorial, surrounded by an iron fence, was erected on the cemetery indicating the dates of the birth and death of this pioneer.

During the 1940's and 1950's most all of the wilderness and debris was cleared from most of Section 25. The land area comprising 11.34 acres, which included the 2 acre area of the Archer cemetery lying in the approximate center along the old Wabash-Erie canal was then set aside as the Johnny Appleseed Memorial Park Containing the Grave of Johnny Appleseed.

In 1952, the construction, near the intersection of Parnell Avenue and U.S.30 By-Pass, of the Allen County War Memorial Coliseum was completed. There were no major changes made on the Appleseed property.

In September 1965, the following symbolic items of significance were installed on the Archer cemetery knoll for memorializing Johnny Appleseed:

- (a)—Cobble stones were placed around the existing granite memorial to remind the visitor of the rough terrain transversed by Johnny Appleseed on his long barefoot journey to Fort Wayne.
- (b)—A large greensward cross, edged by railroad ties, was laid out at the crest of the cemetery. The crossbeam measures 200 feet, the other member extends 250 feet. The cross symbolizes Johnny's mission to spread the Gospel through the wilderness.
- (c)-Evergreens were planted in a pattern to form the initials "J.C." meaning John Chapman.

The present physical appearance is very good.

appleseed planter would leap into an amazing public popularity to become one of America's half dozen favorite folk here and of quote. Appleseed continues to be one of the best known folk herces in the Middle West, in fact, nationally. A spot check during five weeks in 1965 indicated visitors to the Johnny Appleseed Grave area as being from 32 States. A new Johnny Appleseed Commemorative postage stamp, the first in folklore series, we issued in 1966. APPLESEED'S CONNECTION WITH FORT WAYNE With the headwaters of the Atlantic and Gulf drainages being only four feet apart, the Fort Wayne portage was one of the most famous land links in the Old Northwest. John Chapman (Johnny Appleseed) started moving in the 1820's toward this focal point at the Fort Wayne summit. When the first spadeft of earth was turned for the Wabash-Eric canal in 1832, Chapma had extended his enterprises to Fort Wayne, Indiana. For the last twenty years of his life, he was to swing back and for along this divide and Fort Wayne had now become the western end of the long axis about which the remainder of his life was to revolve. Chapman purchased four parcels of land in Allen County, Ind., near Fort Wayne. On one parcel, in Milan Township, he established one of the most extensive nursery plantings. At the time of his death, fifteen thousand seedlings were growing there. Another nursery, in addition to the four parcels purchased, tradition has placed on the west side of the St. Joseph river about three miles up from Fort Wayne, on land originally owned by David Archer. It also being in a thrift condition. Near this nursery, was the cabin of Mr.& Mrs Wort who were Chaman's first acquaintances and were his friends. (Number all entries) (Significance - Continued from Form 10-300.) time while in this vicinity and where he died in 1845. The Worth cabin with friends, the nursery and Archer cemetery all within a radius of approximately one half mile.

The Fort Wayne Sentinel of March 22,1845, upon Chapman's death, stated: "The deceased was well known through this region----- He followed the occupation of a nurseryman and had been a regular visitor here upwards of twenty years." end of quote.

- * Man And Myth: "We buried him respectably," said Richard Worth in 1858, "in David Archer's grave yard, two and a half miles north of Fort Wayne." end of quote.
- * Man And Myth: "The Archer family burial lot was located on a sandy knoll a few rods west of the river a short distance south of the general locations attributed to the Chapman nursery and Worth's cabin---." end of quote.

Chapman was buried here because of his final illness and death at the Worth cabin amongst his friends and because of his long association with others in this area.

* Man And Myth: "Johnny Appleseed Memorial Park, together with the Johnny Appleseed Memorial Bridge over the St. Joseph, close by, was dedicated May 21,1949, and now constitutes the most extensive memorial to John Chapman——." end of quote.

There is no other site in the State so closely associated with John Chapman's productive life as it is here in Fort Wayne.

The two acre sandy knoll lying within the ll.34 acre Johnny Appleseed Memorial Park is the apex of the park. It has been considered the ideal area and focal point for many years for memorializing Johnny Appleseed and his good deeds. The placement of a few items of significance now on the knoll, regardless of the place in the nation of his activity during his life until death, has already served as visual education for visitors to the site. Their comments have been most complimentary. It is for this purpose and reason, this site is being nominated for entry into the National Resistant.
